ABOUT ME

Diligent software engineer with 3 years of demonstrated working experience in Identity & Access Management domain. An empathetic team player, mentor, and innovative thinker. Skilled in JavaScript, TypeScript, HTML, CSS, Angular, Docker, and Git. I'm eager to learn new technologies in distinct areas. Seeking a position in an environment which emphasizes teamwork, good communication and encourages learning by doing. And I aim towards becoming a Full-stack developer. Strong professional with a Bachelor of Engineering (BE) in Computer Science from MVJ College of Engineering (affiliated to Visvesvaraya Technological University).

WORK EXPERIENCE

Frontend developer

Micro Focus [05/08/2019 – Current]

City: Bangalore, India

- Designed and developed core features of two enterprise-level Identity Management applications (Identity Console, Identity Repository) using the latest technologies of **Docker, Angular, TypeScript, HTML5, and CSS**.
- Continuous Integration/Deployment pipeline integration using **Jenkins**, Code Reviews, Load Testing, Unit/Integration/E2E Testing.
- Implemented a Linux Standalone Installer for an application using **shell scripting**. Integrated and built a cross-platform desktop application with **ElectronJS, Angular, and JavaScript** which helped 80% of the customer base who were not used to docker.
- Worked in an Agile environment and was involved in complete SDLC from product inception to delivery. Successfully mentored Interns and new joiners.
- Led multiple presentations of the products worked on to several stakeholders, Product Managers, and VP of the organization.

Software engineering Intern

Micro Focus [30/01/2019 – 30/07/2019]

City: Bangalore, India

- Automated 600+ end-to-end test cases and integrated them with Jenkins pipeline which reduced the manual testing efforts by 90%.
- Started working on front-end development activities(Angular, javascript)
