 **Address:** H N0 #165, Near shani mahatma temple, Yadavanahalli, Attibele Hobli, Anekal Taluk, 562107 Bangalore (India)

ABOUT ME

Diligent software engineer with over 2.6 years of demonstrated working experience in Security, Identity & Access Management portfolio. An empathetic team player, mentor, and innovative thinker. Skilled in JavaScript, TypeScript, HTML, CSS, Docker and various open-source frameworks such as AngularJS, NodeJS. In addition to development, I have experience with UI automation, shell scripting, CI/CD, Jenkins, Fortify, Git and I aim towards becoming a full stack developer. Strong professional with a Bachelor of Engineering (BE) in Computer Science from MVJ College of Engineering (affiliated to Visvesvaraya Technological University).

WORK EXPERIENCE

Frontend developer

Micro Focus [05/08/2019 – Current]

City: Bangalore, India

- Led the design and development of many features in an enterprise-level Identity Management application (Identity Console) that provides a web-based administration console using the latest technologies of **Docker, Angular, TypeScript, Html, and CSS**.
- Designed and implemented core features of an application (Identity Repository) that allows users to onboard the identities and provide the capability to transform, view, and manage Identities from multiple Identity Sources (Ex. Active Directory, Workday).
- Implemented a Linux Standalone Installer for an application using **shell scripting**. Integrated and built a cross-platform desktop application with **ElectronJS, Angular, and JavaScript** which helped 80% of the customer base who were not used to docker.
- Continuous Integration/Deployment pipeline integration using **Jenkins**, Code Reviews, Load Testing, Unit/Integration/E2E Testing.
- Worked in an Agile environment and was involved in complete SDLC from product inception to delivery.
- Successfully mentored Interns and new joiners.

Software engineering Intern

Micro Focus [30/01/2019 – 30/07/2019]

City: Bangalore, India

- Worked on UI automation and got handy with tools like Protractor, Selenium. Contributed in UI testing of a web application.
- Automated 600+ end-to-end test cases and integrated them with Jenkins pipeline which reduced the manual testing efforts by 90%.
- Started working on front-end development activities (Angular, javascript)

EDUCATION AND TRAINING

Bachelor of Engineering

MVJ college of Engineering (affiliated to Visvesvaraya Technological University). [02/08/2015 – 30/07/2019]

Address: Bangalore (India)

<https://www.mvjce.edu.in/>

Field(s) of study: Computer Science and Engineering

Final grade : 7.9

DIGITAL SKILLS

Proficient With

JavaScript / TypeScript / Python / Angular / HTML / Postman / Git / Docker / CSS / Jenkins

Familiar With

CI/CD / Jasmine / Unit Testing / OOP / Node

Others

Identity & Access Management / LDAP / Electron / Fortify / edirectory
